PROFESSIONAL SUMMARY

Security professional with 6+ years of hands-on experience spanning SOC operations, SIEM engineering, endpoint and email security, web proxy management, and cloud security monitoring. Proven track record of building SOC capabilities from the ground up, leading L1/L2 analyst teams, and driving measurable improvements in detection quality and organizational security posture. Currently at Greytip Software, where I designed and deployed a full-fledged SOC environment, built AI-driven automation for repetitive alert analysis, and support governance activities — security policy and procedure reviews, risk management, and audit process reviews. Prior experience at Deloitte as an Assistant Manager overseeing multi-client SOC engagements.

CORE COMPETENCIES & TECHNICAL STACK

SIEM	IBM QRadar · Splunk · Wazuh
EDR / XDR	SentinelOne · Trend Micro · Microsoft Defender · XProtect
Email Security	Trend Micro Email Security · Google Workspace Security
Web Proxy	Zscaler
Cloud Security	GCP SCC · Cloud Armor · AWS GuardDuty · AWS WAF
Threat Intel	OpenCTI · MISP · TheHive
SOAR / Case Mgmt	Cortex XSOAR · Shuffle · ServiceNow · Jira · Apex · ManageEngine
AI / Automation	AI Agent for Alert Triage Automation · SOC Workflow Automation
GRC / Process	Policy & Procedure Reviews · Risk Management · Audit Process Reviews · VAPT & ASM Report Reviews
Security Focus	SOC Buildout · Detection Engineering · Incident Response · Rule Tuning · Log Onboarding

EMPLOYMENT HISTORY

Senior Security Analyst / SOC Team Lead
Greytip Software Solutions (GreyTHR) · Bengaluru

Mar 2024 – Present

SOC Design & Deployment

- ▶ **Architected and deployed** a full SOC from scratch using Wazuh, OpenCTI, MISP, and TheHive — covering endpoint, server, application, and cloud telemetry.
- ▶ **Integrated cloud-native controls** (GCP SCC, Cloud Armor, AWS GuardDuty, AWS WAF) into centralized Wazuh monitoring for unified hybrid-environment visibility.
- ▶ Established **log collection, normalization, and ingestion health validation** across on-prem and cloud sources.
- ▶ Built centralized **alerting, correlation, and case management workflows** spanning the full SOC toolchain.

EDR & Endpoint Security

- ▶ Deployed and manage **SentinelOne and Trend Micro EDR** across the organization; set policies in EDR and JumpCloud for endpoint control.
- ▶ Investigated malware, suspicious process execution, and lateral-movement indicators; coordinated **containment and remediation**.

Email Security Management

- ▶ Own and operate **Trend Micro Email Security and Google Workspace** protection; monitor phishing campaigns, suspicious logins, and email-borne threats.
- ▶ Managed policy enforcement and alert investigation for organization-wide email security posture.

Web Proxy & Access Control

- ▶ Manage **Zscaler** web proxy for secure internet access, URL filtering, and SSL inspection across the enterprise.
- ▶ Monitor and investigate proxy alerts for policy violations, data exfiltration indicators, and malicious destinations.

Detection Engineering & Operations

- ▶ Developed and continuously **tuned Wazuh detection rules** aligned with MITRE ATT&CK; reduced false positives and improved signal fidelity.
- ▶ Built an **AI agent to automate analysis of repetitive alerts**, accelerating triage of routine detections and freeing analyst time for complex investigations.
- ▶ Maintained threat intelligence integrations via **MISP and OpenCTI** feeds into the SOC detection pipeline.
- ▶ **Mentored SOC analysts** and drove investigation methodology improvements across the team.
- ▶ Implemented **SSO configurations** across the organization; contributed to identity and access security.

Process Management & Governance (GRC)

- ▶ Support **security policies and procedures reviews**, keeping documentation aligned with organizational security requirements and industry practice.
- ▶ Contribute to **risk management activities** — supporting risk identification, assessment reviews, and remediation tracking.
- ▶ Support **monitoring and auditing process reviews**, validating the effectiveness of security controls and operational processes.
- ▶ Review **VAPT reports and Attack Surface Management (ASM) tool findings**, validating identified exposures and tracking remediation with stakeholders.

Assistant Manager – SOC

Deloitte · India

Jun 2023 – Apr 2024

- ▶ **Managed multi-client SOC operations**, overseeing alert triage, escalation workflows, and SLA adherence across enterprise accounts.
- ▶ Acted as **primary client-facing security contact**, coordinating detection gap reviews and monitoring strategy updates.
- ▶ Reviewed and validated **L1/L2 analyst investigations**, coaching teams on investigation quality and escalation accuracy.
- ▶ Worked with SOC managers to **optimize detection use cases** and tune correlation rules in QRadar and Splunk.
- ▶ Prepared executive-level **SOC reports, offense summaries, and operational dashboards** for client stakeholders.

Security Consultant – SOC

Deloitte · India

Dec 2021 – Jun 2023

- ▶ Performed **daily alert triage** across SentinelOne, O365, Zscaler, Trend Micro, and QRadar for multiple clients.
- ▶ Created and tuned **SIEM detection rules** based on client threat environments and attack pattern analysis.
- ▶ **Onboarded and validated log sources** to ensure continuous monitoring coverage; ensured parser health and ingestion integrity.
- ▶ Supported **Incident Response teams** with SIEM log extraction, timeline building, and cross-source correlation.
- ▶ Acted as **on-site SOC coordinator** for client engagements; managed escalations and investigation workflows.

- ▶ Mentored junior analysts; conducted review and **feedback sessions for L1 analysts**.

Security Analyst

CSCC Labs · India

Sep 2019 – Dec 2021

- ▶ Worked across **multiple security domains** — SOC monitoring, VAPT, server hardening, and EDR rule creation.
- ▶ Monitored and investigated security events across SIEM and EDR platforms as an **L1/L2 SOC analyst**.
- ▶ Performed **vulnerability assessments and penetration testing** on network and web application assets using Nessus, OpenVAS, Nmap, Burp Suite, and OWASP ZAP.
- ▶ Executed **server hardening** activities — baseline configuration reviews, patch validation, and secure configuration enforcement.
- ▶ Created and tuned **EDR detection rules** and assisted in SIEM rule creation and detection coverage reviews.

CERTIFICATIONS

-
- ◆ ICSI Certified Network Security Specialist (CNSS) — ICSI
 - ◆ Fortinet NSE 1 & NSE 2 — Fortinet
 - ◆ Autopsy Digital Forensics Training (8 Hours) — Autopsy / Basis Technology
 - ◆ CyberArk Security Training — CyberArk

EDUCATION

B.Tech – Computer Science & Engineering

Anantha Lakshmi Institute of Technology and Sciences ·
JNTUA University

2015 – 2019
